

Aranet PRO base licensing visual demo and instructions

BASE STATION FUNCTIONALITY UPGRADE
BY **LICENSE UPLOADING**

FEATURE DESCRIPTION

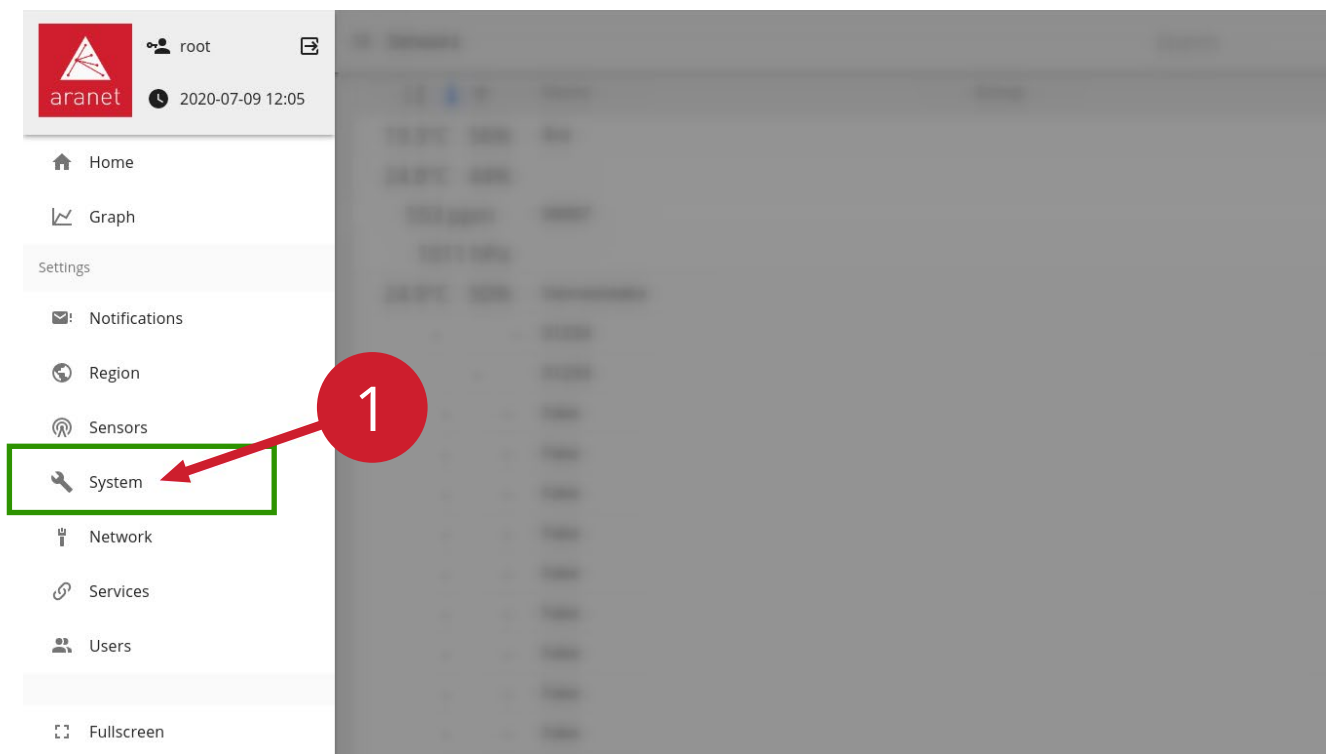

Aranet PRO licenses allow you to expand the features of your Aranet PRO base station by uploading a manufacturer provided license file.

Current licensing is used to:

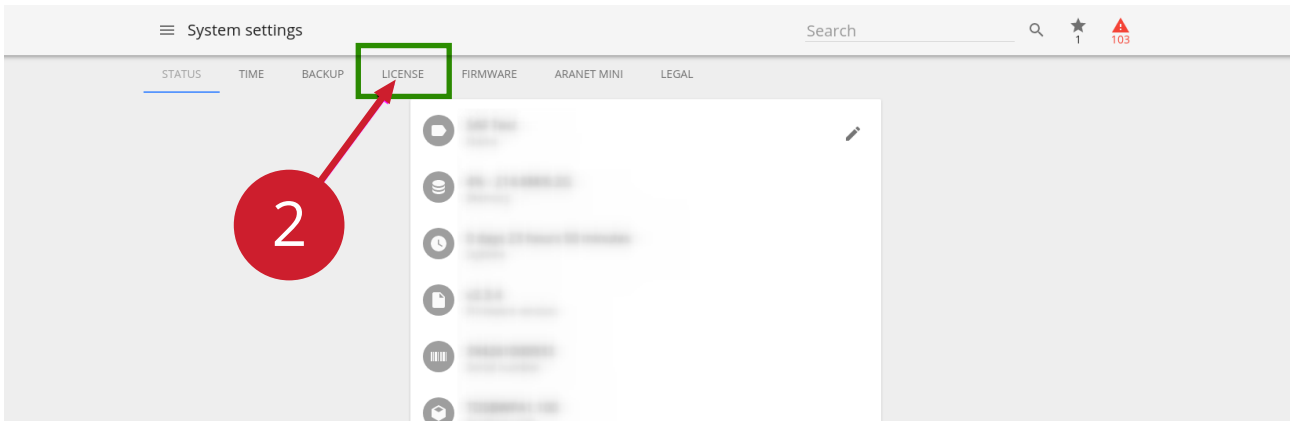

- Increase the maximum amount of sensors you can pair to the base station;
- Enable MQTT data sending to third party systems.

VISUAL DEMO

Enter the system settings

Enter the license subsection of the system settings

In this section you can add a new license and view the list of your current licenses.
